

NUTRICIA GLOBAL VIRTUAL CONFERENCE 2023:

TRANSFORMING LIVES WITH SPECIALISED NUTRITION – TAKING SCIENCE & RESEARCH TO ACTION IN PRACTICE

April 18th, 13:00 – 17:00 CEST

April 19th, 00:00 – 04:00 CEST

KEY NOTE LECTURE: "THE FUTURE OF HEALTH: EXPLORING THE CONVERGENCE OF NUTRITION, TECHNOLOGY, AND DISEASE PREVENTION" - STEVEN TUCKER MD (SG)

THE POWER OF NUTRITION IN EARLY LIFE

How to use physical exam to assess for malnutrition in infants and children with poor growth: practical tips beyond anthropometrics

Caitlin Stewart MS, RDN, CDN, CNSC, CLC (US)

Clinical benefits of synbiotics on the dietary management of infants with cow's milk allergy

Dr. Rosan Meyer (UK) & Prof. Anna Nowak-Węgrzyn (US)

Ketogenic diet therapy in young infants, what about growth?

Dr. Marisa Laura Armeno (AR)

Infant feeding essentials and navigating mixed milk feeding

Dr. Alison Ventura (US)

Next generation Lipids: new evidence to support healthy growth and development in childhood

Prof. Ardy van Helvoort (NL)

The role of the gut microbiota in caesarean born infants and the effects of synbiotics (including new data)

Prof. Jan Knol (NL)

How to differentiate between cow's milk allergy (CMA) and functional gastrointestinal disorders (FGIDS) – an interactive discussion on diagnosis and nutritional management

Prof. Nikhil Thapar (AU) & Dr. Rosan Meyer (UK)

TAKING ACTION TO IMPLEMENT OPTIMAL PATIENT- CENTERED NUTRITIONAL CARE IN ADULTS

How does medical nutrition transform lives? A physician-patient experience

Prof. Paul Wischmeyer (US)

Prioritizing nutritional care in the survival and recovery of critical illness

Prof. Arthur van Zanten (NL), Dr. Lee-Anne Chapple (AU), Mr. Alex Lang MSc (UK)

Bridging emerging science & practice in nutrition for oncology patient care

**Prof. Alessandro Laviano (IT), Dr. Stefan Rauh (LX), Prof. François Goldwasser (FR),
Prof. Jozsef Lovey (HU)**

Why muscle-targeted nutrition should be first-line in frailty

Prof. Luc van Loon (NL), Dr. Emanuele Cereda (IT), Prof. Andrea Maier (NL) & Dr. Irene Bretón (ES)

Plant-based medical nutrition: An opportunity to individualize nutritional care by meeting patient needs, preferences & values.

Dr. Anne Holdoway (UK) and Dr. Rebecca Stratton (UK)

Advancing the field of medical nutrition with clinical research – how to take action?

Prof. Elisabeth De Waele (BE), Prof. Alessandro Laviano (IT) and Dr. Anne Holdoway (UK)
